## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5, 9-14 and 128 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. The instant claims have been amended to recite: "wherein the catalytic activity is ligation, and wherein the DNA polynucleotide comprises the sequence 5'-GGACCUC-GGCGAAAGC-N50-GAGGUUAGGTGCCUCGUGAUGUCCAGUCGC-3', where N is any nucleotide." Applicant's amendment is vague and indefinite because the sequence recited above represents an RNA sequence, and not a DNA polynucleotide sequence since DNA does not contain the nucleobase Uracil as set forth in the above sequence. The nucleobase Uracil is only found in RNA sequences.

### *Sequence Listing Compliance*

4. Claim 1 and 128 are objected to for failing to recite the appropriate sequence identifiers. According to 37 CFR 1.821 through 1.825, Applicants are required to assign a sequence identifier (SEQ ID NO) for every disclosed unbranched nucleic acid sequence of 10 or more nucleotides and list these sequences individually in a Sequence Listing as a separate part of the disclosure. The Sequence Listing submitted 3-25-03, does not include the sequence recited in the above claims, specifically: 5'-GGACCUC-GGCGAAAGC-N50-GAGGUUAGGTGCCUCGUGAUGUCCAGUCGC-3',

where N is any nucleotide.” Moreover, the as per 37 CFR 1.821(d) which states: Where the description or claims of a patent application discuss a sequence that is set forth in the “Sequence Listing” in accordance with paragraph (c) of this section, *reference must be made to the sequence by use of the sequence identifier, preceded by “SEQ ID NO:” in the text of the description or claims, even if the sequence is also embedded in the text of the description or claims of the patent application.*

### **Conclusion**

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP§ 706.07 (a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
